

Farmanullah Ansari

Software Engineer | .NET, React.js & Docker Specialist

+92 3258906145 farmanullahansari999@gmail.com linkedin.com/in/farmanullah1 github.com/farmanullah1

Karachi Apartment Gulshan-e-Iqbal Block 11, Karachi Sindh Portfolio

Dedicated Software Engineer with a strong foundation in building scalable applications and robust cloud infrastructure. Expertise spans frontend development with React.js, backend engineering using .NET (C#, ASP.NET Core MVC), and containerization via Docker. Proven ability to bridge the gap between application development and modern DevOps practices. Passionate about automating workflows, deploying secure cloud environments on AWS, and engineering inclusive, community-driven digital solutions.

Education

University of Sindh	Jamshoro, Sindh
BS Software Engineering	2022 Jan – 2025 Dec

Professional Experience

PS Coders – Remote (Internship)	Jul 2024 – Oct 2024
Full Stack Developer	
ACM UET Lahore – Remote (Fellowship)	Jun 2024 – Aug 2024
Cloud Computing Fellowship	

Skills

- Languages & Tools: C#, HTML, CSS, JavaScript, Python, Git&GitHub, YAML, JSON
- Frameworks & Databases: .NET, ASP.NET Core MVC, React.js.
- DevOps & Cloud: Docker, AWS (EC2, Elastic Beanstalk), Linux, Git/GitHub Workflow
- Concepts & Tools: Object-Oriented Programming (OOP), Prompt Engineering, Power BI
- Soft Skills: Problem Solver, Teamwork, Time Management, Adaptability, Self-Motivation.

Projects

Gadd Kaam – SkillSwap Pakistan → MERN Stack

- Engineered a secure, full-stack MERN platform designed to digitize the traditional barter system for cashless skill exchange.
- Implemented strict identity checks via CNIC Verification to build a trusted, fraud-free user community.
- Developed real-time trading features, including instant messaging, location filtering, and an exclusive, secure 'Women's Zone' for safe trading.

MindBook – Premier Social Space → MERN Stack, TypeScript, Socket.IO

- Engineered a high-fidelity, fully responsive social media platform utilizing React 19, Node.js, and MongoDB, featuring an infinite news feed, WebRTC HD video/voice calling, and a local marketplace.
- Integrated Google Gemini Pro to power a sophisticated AI chatbot assistant, automate real-time content safety scanning, and enable smart content engine features like post enhancement and tone adjustment

CRUD Application (ASP.NET Core Web API) → C#, ASP.NET Core Web API, SQL

- Developed a robust RESTful API leveraging ASP.NET Core to efficiently handle Create, Read, Update, and Delete operations.
- Structured the backend architecture to ensure seamless database integration and optimized data processing speeds.

Certifications

Complete ASP.NET Core MVC 6 with Real-World Projects	Udemy (Jan 2026)
Docker MasterClass: Docker, Compose, SWARM, DevOps	Udemy (Dec 2025)
React Crash Course: From Zero to Hero	Udemy (Mar 2026)
C# 12 Mastery: From Console Apps to Web Development	Udemy (Jan 2026)
Google Prompting Essentials	Google / Coursera (Jul 2025)
Computer Networks Fundamentals	Udemy (Jul 2025)
Linux Terminal for Beginners	Udemy (Jul 2025)
